

IMPORTANT INFORMATION ABOUT COVER FOR CORONAVIRUS – FOR COMPREHENSIVE POLICIES

This document is a summary of the cover we can provide specifically in relation to **Coronavirus**. It does not form part of your policy.

Your policy includes cover for any medical claim due to **Coronavirus** while travelling, provided that you have received the recommended number of doses of an approved **Coronavirus** vaccine 14 days prior to your trip commencing. This vaccination requirement shall not apply where you were ineligible for vaccination, or unable to receive the vaccine for medical reasons, and this is shown in your medical records.

In addition, your policy includes cover if you have to cut short your trip and return to the UK because you have tested positive for **Coronavirus** (provided this is necessary & unavoidable).

Your policy also includes cover for cancellation if you are unable to travel due to you either:

- testing positive for **Coronavirus** within fourteen (14) days of your trip departure date, or
- being admitted to hospital due to testing positive for **Coronavirus** since you purchased your policy.

Your policy does not include cover for cancellation due to you being required to self-isolate.

We will not cover any cancellation or travel disruption claims due to the government or other regulatory authority placing a restriction on travel due to **Coronavirus** or any future pandemic.

You can travel to any destination listed on your policy certificate, subject to the restrictions laid out in the table below:

It is your responsibility to check the latest advice from the FCDO prior to commencing your trip, which you can find at: https://www.gov.uk/foreign-travel-advice
